

SaifrReview[®]

AI agents help banks, credit unions, and other consumer financial companies bring more compliant communications to market faster.

Banking

The problem:

Growing workloads can introduce more regulatory risks with potentially costly consequences

Retail banking teams face growing pressure to review more marketing content while maintaining regulatory accuracy, transparency, and compliance.

The solution:

Scalable AI that pinpoints potential regulatory risks for more compliant content—faster

Streamline and scale consistent content reviews using AI to proactively surface potential regulatory risks and deliver explainable, requirements-based findings.

Trained on advertising provisions of industry regulations for:

RegZ

RegE

RegDD

UDAAP

Go to market faster with more compliant communications

Reduce regulatory risk

Purpose-built models evaluate marketing and communications content to help identify potential non-compliance issues early.

Scale oversight efficiently

Enterprise-ready design extends review coverage to manage growing content volume without increasing compliance resources.

Improve review consistency

Common evaluation models can help diverse teams identify potential concerns with more uniformity.

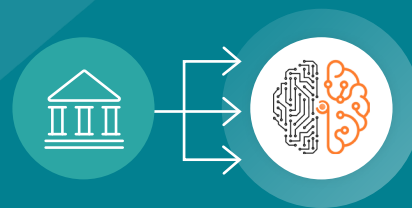

Strengthen decision confidence

Regulation-specific explanations help reviewers understand why content was flagged.

AI built for the nuances of banking industry advertising

SaifrReview is uniquely equipped to evaluate the intricate demands of banking industry advertising because its AI is trained on industry-specific advertising provisions of the following regulations:

RegZ:
Truth in Lending Act

RegE:
Electronic Fund Transfer

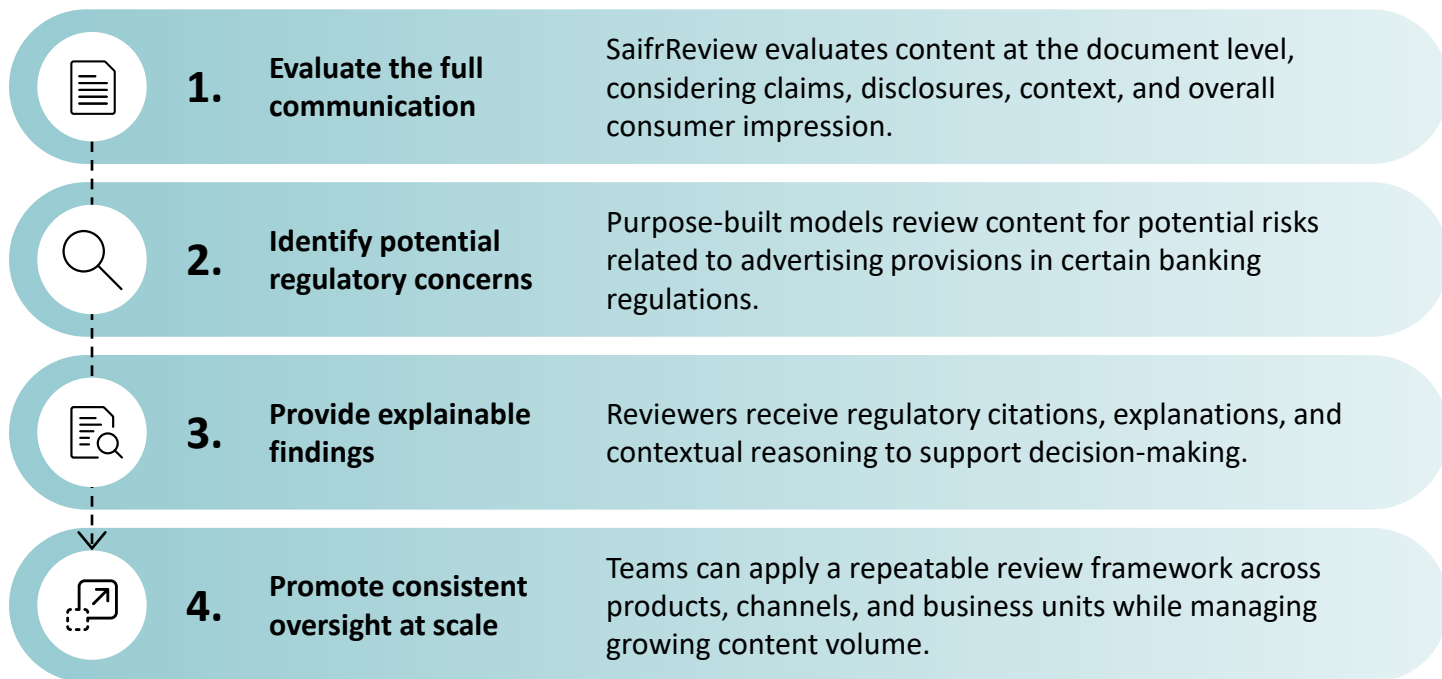

RegDD:
Truth in Savings Act

UDAAP:
Unfair, Deceptive,
or Abusive Acts
or Practices

Saifr solutions are built on decades of proprietary, expert-validated, and industry-specific data used to develop proprietary lexicon, natural language processing (NLP), and computer vision models.

Unlike keyword- and rule-based solutions, SaifrReview evaluates communications in context to identify potential risks based on overall consumer impression, not just isolated statements.

How SaifrReview works:

Scale your marketing compliance—not your risk.
